

STEPS FOR COMPLETING YOUR HOUSE PORT

1. Decide on Size and Style of House Port by reviewing our MODELS & PRICES.
2. Check with local building department to verify requirements of our BUILDING SPECS & MATERIALS. Bring contractor if necessary.
3. Purchase property either through owner or local realtor.
4. Consult or hire a general contractor if you are not the owner/builder.
5. Visit our PURCHASE link with your professional to familiarize yourselves with the process.
6. Complete itemized Line-By-Line Worksheet.
7. Get construction estimate from contractor.
8. Begin securing construction loan if applicable.
9. Make deposit and sign Sales Contract [and return to House Port for purchase of the House Port Kit Package.]
10. After we, at House Port, receive funds, we will send you plans, the building manual and instructional DVD.
11. Obtain all building permits.
12. Finalize contract with contractor if applicable.
13. Prepare site.
14. Final payment and shipping charges are due after foundation is completed.
15. We will deliver the House Port components to the site or closest drop-off location.
16. Construction of House Port: Line-By-Line Worksheet.
17. House Warming Party.
